**Overall Length:**

5.000 inches

**Overall Width:**

3.750 inches

**End Application:**

Personal computers

**Product Name:**

Rocketport universal pci quad db9

**Special Features:**

5 vdc, 224 ma current consumption; 1.2 watt power consumption; 0 - 40 c operating temp; universal pci; i/o mapping capabilities; multiport serial expansion using a single slot; on board 36 mhz risc processor; rs-232 communication support; transmitt buffer 16 times larger and receive buffer 64 times larger than 16550 uart

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A511k0
