Overall Length:

5.000 inches

Overall Width:

3.750 inches

End Application:

Personal computers

Product Name:

Rocketport universal pci quad db9

Special Features:

5 vdc, 224 ma current consumption; 1.2 watt power consumption; 0 - 40 c operating temp; universal pci; i/o mapping capabilities; multiport serial expansion using a single slot; on board 36 mhz risc processor; rs-232 communication support; transmitt buffer 16 times larger and receive buffer 64 times larger than 16550 uart

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
