Overall Length:
5.000 inches
Overall Width:
3.750 inches
End Application:
Personal computers
Product Name:
Rocketport universal pci quad db9
Special Features:
5 vdc, 224 ma current consumption; 1.2 watt power consumption; 0 - 40 c operating temp; universal pci; i/o mapping capabilities;
multiport serial expansion using a single slot; on board 36 mhz risc processor; rs-232 communication support; transmitt buffer 16 times
larger and receive buffer 64 times larger than 16550 uart
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A511k0
