Product Name:

8-bit digitizer

Special Features:

2 simultaneously sampled channels; 250 ms/s real-time and 5 gs/s random-interleaved sampling; 64 mb onboard memory per channel; 40 mv to 40 v input range; edge, window, hysteresis, video (including hdtv) and digital triggering with 40 ps timestamping; 125 mhz bandwidth

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
