Product Name:
8-bit digitizer
Special Features:
2 simultaneously sampld channels; 250 ms/s real-time and 5 gs/s random-interleaved sampling; 64 mb onboard memory per channel; 40
mv to 40 v input range; edge, window, hysteresis, video (including hdtv) and digital triggering with 40 ps timestamping; 125 mhz
bandwidth
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
