End Application:

Chypobaric chamber

Product Name:

Ge force graphics processing units

Special Features:

Graphics bus technology: pci express; memory: 256 mg; effective memory interface: 128 bit; memory bandwidt (gb/sec): 22.4; fill rate(billion pixels/sec): 6.7; vertices/second(millions): 700; pixels per clock(peak): 12; ramdacs(mhz) : 400

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
