End Application:

An/gsq-t106, fixed ground subsystem

Product Name:

Osprey-440 video capture card

Special Features:

4 completely independant channels; 4 composite (bnc) video inputs; 4 pair unbalanced sterio audio input (rca via included breakout cable); oem applications can access 12 additional composite video (3 per channel) via internal pins, switchable, total 4 per channel; 4 pari balanced sterio audio via internal pins; 4 simultaneous medium resolution streams; pci-x, 64 bit pci interface, backward compatiabile to 32-bit/33 mhz pci bus

Functional Description:

Circuit card assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
