**End Application:**

An/gsq-t106, fixed ground subsystem

**Product Name:**

Osprey-440 video capture card

**Special Features:**

4 completely independant channels; 4 composite (bnc) video inputs; 4 pair unbalanced sterio audio input (rca via included breakout cable); oem applications can access 12 additional composite video ( 3 per channel) via internal pins, switchable, total 4 per channel; 4 pari balanced sterio audio via internal pins; 4 simultaneous medium resolution streams; pci-x, 64 bit pci interface, backward compatiabile to 32-bit/33 mhz pci bus

**Functional Description:**

Circuit card assembly

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
