Overall Length:

6.000 inches

Overall Width:

2.900 inches

Product Name:

Pci mezzanine card

Special Features:

Flexible interface providing an advanced single function (asf), dual redundant mil-std-1553 interface to the pci mezzanine; the asf architecture provides independent operation as a bus bus controller(bc), remote terminal(rt), or dual function bus monitoring(bm); pci bus is 2.1 compliant; 132 mb per second maximum transfer rate; 16-bit and 32-bit transfer modes; interface connections: 50-pin scsi to coupling harness(ca-2189)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
