Product Name:

Pci mezzamine card (pmc) bit synchronizer

Special Features:

Achieves ber within 1 db of theoretical over the entire operational range; second-order phase-locked loop extracts a stable clock form a noisy and distorted input signal; host-selectable loop bandwidth; 3 x lbw tracking range; fast acquisition of new signals and retention during temporary signal dropouts; automatic gain and offset controls; selects pcm source from 2 single-ended and one diffeential input

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A511k0
