End Application:

An/ssn-2 (v) 5, display console unit 4 and 5: an/ssn-2 (v) 5, display console unit 4 and 5 modified

Product Name:

Nvidia geforce 9600gt

Special Features:

Specifications: core clock 650mhz; shader clock 1625mhz; memory clock 1800mhz; memory type gddr3; memory interface 256bit; memory capaci type 512mb; stream processor unit/unified shader number 64; standard shader model 4.0; standard directx version 10; video playback technology purevideo hd ii/vp2; interface pcie 2.0; can support 2 displays at same time

Functional Description:

Circuit card assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
