Overall Length:

3.000 inches

Overall Width:

3.000 inches

End Application:

Controller, chiller

Product Name:

Ib series interface boards; interface board assembly

Special Features:

Developed as economical compliments to the tcb temperature control board; available in 3 basic models 1b1, 1b3, and ib6, and each can accept 4-20 milliamp or 0-10 volt dc analog input signals

Functional Description:

Circuit card assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
