End Application:

Persistent surveillance aerostat psa; digitally encoded 1 ch video with return multi-protocol data channel

Product Name:

Digitally encoded 1 channel video with return multi-protocol data channel

Special Features:

One slot digital module design; 10 bit video digital encoding; real time video and data transmission; 7mhz video bandwidth; meets rs-250c short haul transmission specifications; st fc optical connector; hot swappable cards 75ohm bnc video connector; 3-pin screw terminal connectors for data

Functional Description:

Circuit card assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
