**End Application:**

Persistent surveillance aerostat psa; digitally encoded 1 ch video with return multi-protocol data channel

**Product Name:**

Digitally encoded 1 channel video with return multi-protocol data channel

**Special Features:**

One slot digital module design; 10 bit video digital encoding; real time video and data transmission; 7mhz video bandwidth; meets rs-250c short haul transmission specifications; st fc optical connector; hot swappable cards 75ohm bnc video connector; 3-pin screw terminal connectors for data

**Functional Description:**

Circuit card assembly

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
