**End Application:**

Ethercat system

**Product Name:**

4-channel analog input terminal 0...10 volts, single ended, 12 bits

**Special Features:**

4-single ended inputs; power supply via the e-bus; 1 khz input filter limit frequency; conversion time typical 0.625 ms; current consumption e-bus typical 130 ma

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A511k0
