End Application:

Ethercat system

Product Name:

EI6021 serial interface rs422/rs485

Special Features:

Data transfer channels txd and rxd, full/half duplex; data transfer rates are 2, 400...115, 200 baud; default: 9, 600 baud, 8 data bits, no parity and one stop bit; bit transfer with differential signal; cable length is approx 1, 000 m twisted pair; interfaces are rs422/rs485 (differential input); power supply via the e-bus; current consumption e-bus typical 220 ma

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
