Product Name:

Relay driver card

Special Features:

64 individual relay drive lines, integral protection diodes, maximum driver o/p voltage: 40v, maximum o/p sink current: 250 ma, maximum current per driver group 2a, maximum current per board 16a (assumes ext. Supply), fused 5 volts dc from front connector (internal 1.5a auto-reset fuse), connector: front panel multipole connector (96 way scsi ii type), next assembly: 10000374, use on iliatic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
