Product Name:

Hi performance 16-bit analog to digital converter board

Special Features:

: high resolution, 64 channel analog scanning and digitizing input board for vmebus system applications; dual ported data memory, on board timers, auto controlled gain and a programmable bus interrupter enable the board to support extensive analog input traffic/ involvement of the host processor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A511k0
