Overall Length:

3.937 inches

Overall Height:

2.519 inches

Overall Width:

0.472 inches

End Application:

Control pnl,

Basic Shape Style:

Rectangular or square

Features Provided:

Rohs directive compliance

Product Name:

2 chnl, output module

Functional Description:

The analog output module generates signals of a stranded magnitude 4-20ma. The output signal electrically isolated and transmitted with a resolution of 12 bits. Power is derived from the field side.

Color:

Gray

Shelf Life:
