Overall Length:

6.6000 inches

Overall Height:

2.731 inches

Product Name:

Circuir card assembly

Special Features:

Memory: 512mb gddr3, memory interface: 128-bit, memory bandwidth: 22.4gb/s, max power consumption: 40w, graphics bus: pci express gen 2x16 or x1, display connectors: vhdci number of display supports: 4, max displayport resolution: 2560x1600at 60hz, max dvi resolution: 1900x1200 at 60hz, supports: microsoft windows 7, or vista (32-or 60-bit any edition), xp 32-or 64-bit) or linux, thermal solution: active fansink

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511k0
