**Overall Length:**

6.6000 inches

**Overall Height:**

2.731 inches

**Product Name:**

Circuit card assembly

**Special Features:**

Memory: 512mb gddr3, memory interface: 128-bit, memory bandwidth: 22.4gb/s, max power consumption: 40w, graphics bus: pci express gen 2x16 or x1, display connectors: vhdci number of display supports: 4, max displayport resolution: 2560x1600at 60hz, max dvi resolution: 1900x1200 at 60hz, supports: microsoft windows 7, or vista (32-or 60-bit any edition), xp 32-or 64-bit) or linux, thermal solution: active fansink

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A511k0
