End Application:

Common air route surveillance radar antenna dr system (carsrads)

Special Features:

EI2612 output terminals have two relays each of which has a single contact. 2 x change-over outputs, rated load voltage 230v ac/30 v dc, permitted load 10 ma at 5 v dc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
