End Application:

Cutmaster 52

Product Name:

Printed circuit board

Special Features:

Description: logic pcb; ref: pcb3; note: 9-0107 logic pcb, if serial no. Of power supply is prior to no. 05078755 then kit no. 9-0201 will be needed to replace not only logic pcb (9-0107) but the regulator (9-0115) as well. Another way to tell if the kit is needed is to see if the regulator has a small diameter tube coming out of the bottom fitting, if there's a transducer and wire harness instead of the tube, the kit is not needed.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500n0
