Product Name:

32-channel current excitation module

Special Features:

Length: 18.8cm; width: 17.2cm; height: 3cm; i/o connector are screw terminals; min operating temp: 0 degrees c and maximum operating temp: 50 degrees c; min storage temp: -20 degrees c and maximum storage temp: 70 degrees c

Functional Description:

Provides 32 channels of 100ua current excitation; measures resistance with high degree of accuracy; can be used with the ni scxi-1600 usb daq module to create a completely plug-and-play usb data acquisition system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
