Product Name:

128-bit high-voltage digital output board with built-in test

Special Features:

6800 ohms; 24 vdc output voltage; 30 vdc absolute voltage; 26 p2 user ground connections; sip sockets at pull-up resistor; normal fuse; no conformal coating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
