End Application:

System computers used in avionic subsystem communications, surveillance system, or satellite testing

Product Name:

Ni pxi-6561

Special Features:

Two 16mb/channel; digital waveform generator/analyzer; 0 - 55 c operating temp; 16.4 watt maximum power requirement

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
