Major Components:

Has 8 input and 4 output analog channels. Has 6 input and 4 output digital channels. Has two 32-bit, 80 mhz counter/timers. Has a 37-pin, d-sub, input/output connector.

End Application:

Engine, diesel

Product Name:

Industrial multifunction data acquisition (daq) device

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
