Overall Length:

5.330 inches

Overall Height:

4.725 inches

Overall Width:

2.710 inches

End Application:

Linux server

Product Name:

Dual port copper ethernet server adapter

Special Features:

Copper fiber; dual port; energy efficient; innovated power mangement; flexible port; iscsi cost effective san connectivity; high perfomance

bridgless design support pci express; can be built into micorsoft/windows/vmwear/esx server platforms

Functional Description:

Used to improve cpu storage/high bandwidth for low profile pcle server area

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
