Overall Width:

0.750 inches

Thickness:

0.125 inches

Special Features:

W/adhesive backing on one face; usage location: along one edge

Material:

Rubber synthetic and copper and tin alloy and rubber silicone class q

Shape:

Triangular

Specification Data:

07700-ams-3195 professional/industrial association specification and 07700-aisi-1010 professional/industrial association standard and 07700-astm-b-227 professional/industrial association standard and 07700-astm-b-33 professional/industrial association standard and 07700-qq-w-343 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506y0
