Body Style:

Cylindrical

Body Diameter:

1.000 inches

Frequency Rating:

40.000 megahertz

Body Length:

3.000 inches

Individual Section Quantity:

1

Operating Temperature Range:

-55.0/+85.0 degrees celsius

Voltage Rating:

120.000 volts

Material And Location:

Brass case

Frequency Bandwidth:

14000.0 kilohertz

Section Delay Time:

3.000 microseconds single section

Terminal Type And Quantity:

2 solder stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32100
