Body Style:

Cylindrical

Body Diameter:

0.312 inches

Body Length:

5.500 inches

Mounting Facility Quantity:

3

Material And Location:

Any acceptable

Surface Treatment And Location:

Any acceptable

Mounting Facility:

Terminal

Attenuation In Decibels:

0.500

Signal Delay Method:

Lumped constant

Terminal Type And Quantity:

3 wire leads

Special Features:

0.5 microsecond time delay

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32100
