**Cross Sectional Shape:**

Wire and composition

**Overall Length:**

8.210 inches

**Overall Width:**

4.815 inches

**Cross-sectional Height:**

0.125 inches

**Environmental Protection Material Location:**

Throughout rf shielding gasket

**Material:**

Rubber silicone class q environmental seal

**Material Specification:**

Qq-n-281 federal specification single material response emi/rfi conductor

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A032a0
