Cross Sectional Shape:

Wire and composition

Overall Length:

8.210 inches

Overall Width:

4.815 inches

Cross-sectional Height:

0.125 inches

Environmental Protection Material Location:

Throughout rf shielding gasket

Material:

Rubber silicone class q environmental seal

Material Specification:

Qq-n-281 federal specification single material response emi/rfi conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
