Cross Sectional Shape:

Emi

Hole Diameter:

0.177 inches

Overall Length:

4.850 inches

Overall Width:

4.800 inches

Outside Corner Radius:

0.140 inches

Cross-sectional Height:

0.063 inches

Bolt Hole Quantity:

9

Material:

Aluminum alloy emi/rfi conductor

Material Specification:

Qq-a-250 military specification single material response emi/rfi conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A032a0

Mil-std (military Standard):

spec.
