Overall Diameter:

Between 1.155 inches and 1.160 inches

Overall Thickness:

Between 0.220 inches and 0.270 inches

End Application:

Type e-9

Usage Design:

Used as part of a magnetic clutch

Mounting Configuration:

0.630 in. Maximum 0.570 in. Min diameter axial mtg hole

Face Size:

1.155 inches min 1.160 inches max

Flux Density:

540.000 gauss

Material:

Steel

Material:

Steel

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T174-a
