Cross Sectional Shape:

Emi

Hole Diameter:

0.368 inches

Overall Length:

8.500 inches

Overall Width:

3.625 inches

Cross-sectional Height:

0.125 inches

Bolt Hole Quantity:

4

Special Features:

Two 1.375 in. Diameter through holes spaced 3.000 in. C to c

Material:

Aluminum alloy 2024 emi/rfi conductor or nickel alloy emi/rfi conductor

Material Specification:

Qq-a-355, alloy 2024-t3 federal specification 1st material response emi/rfi conductor

Surface Treatment:

Anodize emi/rfi conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
