Overall Height:

0.531 inches

End Application:

F-16 aircraft, air combat maneuvering instrumentation (acmi), a-10 simulator, mx peacekeeper missile, support equipment mx peacekeeper missile.

Criticality Code Justification:

Feat

Special Features:

Weapon system essential

Material:

Aluminum

Material Specification:

Qq-a-225/6 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03600

Mil-std (military Standard):

Mil-a-8625 spec.
