| Operating Tempurature Range:       |
|------------------------------------|
| -55.0/+95.0 degrees celsius        |
| Mounting Facility Quantity:        |
| 2                                  |
| Input Impedance Rating:            |
| 1000.000 ohms                      |
| Output Impedance Rating:           |
| 1000.000 ohms                      |
| Mounting Facility:                 |
| Threaded stud                      |
| Section Delay Time:                |
| 500.000 nanoseconds single section |
| Terminal Type And Quantity:        |
| 12 wire leads                      |
| Fsc Application Data:              |
| Video processorradar, airborne     |
| Shelf Life:                        |
| N/a                                |
| Unit Of Measure:                   |
|                                    |
| Demilitarization:                  |
| Yes - demil/mli                    |
| Fiig:                              |
| A32100                             |
|                                    |
|                                    |
