Overall Depth:

11.000 inches

Overall Height:

13.000 inches

Overall Width:

18.000 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

400.0 hertz

End Application:

Aircraft ins systems

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Not included

Pressurization Connection:

Included

Phase:

Single

Special Features:

Drawing name=inertial navigation system ground cooling kit; the kit is contained in a transport case. C/o peri-seals, blower fan assembly, power cord, adapter cord, adapter assembly, duct assembly

Functional Description:

Fins ground cooling kit is designed to supply supplementary cooling air which is required for all ground operations of the inertial measurement uni (imu) . Uses ambient air or adapts to use cooled air

Reference Data And Literature:

33da102-13-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
