Conductive Gasketing Material - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5999-01-046-7766

Overall Width:
0.500 inches
Thickness:
0.094 inches
Special Features:
Sealing medium material type: silicone sponge, ams 3195; usage location: throughout rf shielding gasket
Material:
Silicone and nickel alloy
Shape:
Triangular
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A506v0
