Sealing Element Material:

Silicone rubber

Cross-sectional Thickness:

0.045 inches

Cross-sectional Width:

9.000 inches

Cross-sectional Shape:

Rectangular

Wire Material:

Nickel copper alloy

Weather Sealing Compound Impregnation:

Provided

Nonmetallic Core:

Not provided

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T174-f
