Cross Sectional Shape:

Wire and composition

Overall Length:

0.500 inches

Overall Width:

0.250 inches

Cross-sectional Height:

0.312 inches

Environmental Protection Material Location:

Throughout rf shielding gasket

Material:

Rubber silicone class q environmental seal

Material Specification:

Qq-n-281, class a federal specification single material response emi/rfi conductor

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
