End Application:

F/a-18 acft

Special Features:

0.380 in. dia., 0.310 in. h., one end open for a length of 0.190 in., dia. At open end increases depending on size of transistor inserted

Material:

Beryllium and copper

Material Specification:

Qq-c-533 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03600
