Special Features:

Diallyl phthalate material; black color; 27500 psi compressive strength; 425 volts/mil dielectric withstanding voltage for 0.125 inch thk material; minus 55 to plus 232 degrees c ambient temperature range; 0.430 inch od; 0.025 inch diameter holes on a 0.350 inch dia; 8 holes spaced 45 degrees center to center

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03600
