Overall Height:

5.500 inches

End Application:

Bgm-109g

Temperature Control Device Type:

Miniature thermal switch

Special Features:

9.810 in. Lg, voltage rating 26.5 vdc, o/a thk 3.100 in., operating temp range -54/+55 degrees c, temp indicating device included, built-in temp temp indicating device included

Functional Description:

For micro-b transponder

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A144a0
