Electronic Shielding Gasket - Page 1 of 1 View Online at https://aerobasegroup.com/nsn/5999-01-181-4975 **Cross Sectional Shape:** Emi **Hole Diameter:** Between 0.280 inches and 0.300 inches **Bolt Circle Diameter:** Between 4.923 inches and 4.953 inches **Outside Diameter:** Between 5.309 inches and 5.327 inches **Aperture Width:** Between 1.335 inches and 1.365 inches **Aperture Length:** Between 1.835 inches and 1.865 inches **Cross-sectional Height:** Between 0.024 inches and 0.030 inches **Bolt Hole Quantity: Environmental Protection Material Location:** Throughout rf shielding gasket Material: Silicon environmental seal **Material Specification:** Mil-g-83528, type k military specification single material response environmental seal **Precious Material And Location:** Emi/rfi conductive particle surfaces silver **Precious Material:** Silver

Surface Treatment:
Silver emi/rfi conductor
Style Designator:
Circular square
Supplementary Features:
One centrally located rectangular aperturturee
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Filg:
A032a0
Mil-std (military Standard):
Mil-g-83528 spec.
