Voltage Rating In Volts:

250.0 dc

Current Rating In Amps:

300.0

Product Name:

Shunt type contactor

Special Features:

Item consists of magnet frame, operating coil, movable armature and main contacts

Precious Material And Location:

Contacts silver

Precious Material:

Silver

Special Test Features:

Single pole, continuous duty

Supplementary Features:

Lubrication is done with light oil. Frequency of lubrication depends on service conditions.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A222a0
