

View Online at <https://aerobasegroup.com/nsn/5999-01-219-1604>

Special Features:

Silicone rubber and fiberglass composite; flame retardant; thermally conductive heat sink insulator; 0.007 in thick; 1.650 in lg; 1.140 in w; lg hole diameter 0.165; sm hole diameter 0.062 in; greaseless; non-toxic; continuous use temp m60 to p200 degrees c; min breaking strength 110 lbs/in; maximum tensile strength 2200 psi; gray color; min breakdown voltage 5000 v normal 2500 v moist; maximum elongation 5 pct

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03600
