Cross Sectional Shape:

Wire and composition

Hole Diameter:

0.140 inches

Overall Length:

10.520 inches

Overall Width:

Between 7.440 inches and 7.460 inches

Cross-sectional Height:

Between 0.055 inches and 0.065 inches

Bolt Hole Quantity:

14

Environmental Protection Material Location:

Throughout rf shielding gasket

Material:

Rubber silicone class q environmental seal

Material Specification:

Ams 4182 federal specification single material response emi/rfi conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
