Cross Sectional Shape:

Emi

Overall Length:

Between 32.510 inches and 32.630 inches

Overall Width:

10.570 inches

Cross-sectional Height:

Between 0.125 inches and 0.156 inches

Material:

Nickel emi/rfi conductorrubber silicone class q environmental seal

Material Specification:

Qq-n-281 federal specification single material response emi/rfi conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
